

Oral Health Journey Begins....

Welcome to Dr. May's biological clinic—one of the leading biological surgery and destination dental offices in America. As an official Pompa Program partner, we are honored to join you on your transformative journey toward enhanced health and healing.

How to Get Started...

The initial step to getting your case reviewed by Dr. May is to fill out the [Dr. Pompa Dental Patient](#) form, and you will instantly receive an email with details and next steps. The email will describe your upcoming experience at **NATURAL DENTISTRY + CERAMIC IMPLANTS** starting with case review, timing, pricing, travel info, how to securely upload your 3D Conebeam "CBCT" Scan (*or how to obtain one*) for your case review while connecting you directly with our amazing dedicated New Patient Team for white glove support.

Process at a Glance...

- Fill out [Dr. Pompa Dental Patient Form](#)
- Review email with detailed information
- Registration Forms Submitted (in email)
- Upload 3D CBCT Scan via secure link (in email)
- CBCT Scan Parameters:
 - Zipped Folder titled "Name DOB"
 - Must be < 6 Months Old
 - Exported in DICOM format
 - Minimum 200 voxels and 10x10 cm
- Pay \$500* Deposit (in email) *applied towards the initial 2 hour appointment*
- Receive Case Review + Treatment Estimate in 2-4 days via email
- Phone Call or Zoom for Case Review, Questions, Protocols, Plan Visit

Our Pompa Patient Welcome email includes details on where to obtain a CBCT scan, instructions on compatibility of software/equipment, and export instructions that you can provide to your local dentist or Conebeam imaging location. It also includes information about our office, initial appointment, travel patient set up, treatment planning, before & after gallery, pre- & post-surgery protocols and importantly, provides detailed information about our biological dental services. Our goal is to get you evaluated and scheduled based on your urgency, your needs and your travel schedule. More information is available online or via our New Patient Team!
